

WSACC Keyboard Program

Keyed Up for Success!

Children, who take keyboard lessons, are exposed to skills that enhance listening and learning abilities.

Music lessons at WSACC will encourage your child to develop perseverance, self-motivation, focus and concentration, as well as to set goals and celebrate their achievements. Keyboard lessons are a fun way for your kids to experience the many wonders of music.

WSACC's in-house music teacher, Steve Hawley, has 20 years of teaching experience including over 6 years with school based keyboard programs. He has helped many students prepare for and sit their AMEB exams. As well as teaching, Steve is a talented musician who continues to perform professionally.

What a fantastic way to begin or further your child's musical education without interfering with your weekends or breaking the budget.

Phone or email for more details:
